

With the spring softball season just around the corner, ASA wants to remind you that Clubspaces offers comprehensive league management tools, including online registration and player management. It's not too late to set up online registration for this season!

Online registration can be a valuable tool for your league!

- **Save volunteer's time!** Cut back countless volunteer hours spent entering player data.
- **Go Green!** Eliminate paperwork with an online registration form.
- **Help busy parents!** Parents are busy enough once the season starts. Online registration helps parents save time filling out forms, mailing in checks or standing in long lines at walk-up registration.
- **Drive more revenue!** Many leagues find that asking for small donations during online registration actually increases donations for the league.
- **Accurate and timely reporting!** Create accurate reports to know who has registered and paid for the season.

Clubspaces will help you set up your league's registration process and also offers FREE registration training for your volunteers.

To get started, simply go to www.clubspaces.com/ASA .
Activate your Clubspace today!

Please contact [Mike Mattos](#) if you have any questions, would like to set up a demonstration, set-up your spring registration complete with customized registration questions and your own merchant account.
